RE: KATHLEEN KELSO
#PID 710458119

TO WHOM IT MAY CONCERN:

With this letter we are enclosing a check in the amount of \$2,500. for the above named student. Ms. Kelso was a scholarship winner of our organization this year and we are very happy to be supporting her in furthering her education.

Sincerely,

Leah G. Schad
Treasurer

May 14-2003

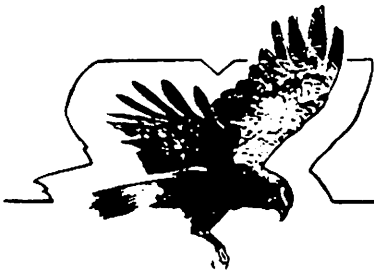

Kathleen Kelso
16 Sailfish Lane
Ocean Ridge FL 33435

Dear Kathleen,

A mere congratulations is an understatement!
Your work of the last four years is nothing short
of phenomenal.
Understanding the basics of cause and
effect is most often overlooked by bright, motivated
students in their eagerness to "discover cures."
We would have more environmentalists if
that were not the case.

Our organization is grateful to you, Kathleen,
for your dedication of the past four years to
understanding and researching "step 1." It
is more important than modern science. It is
basic science.

Your marine biology research is
outstanding. It should especially be noted
the ocean is the cradle of life on earth.

AUDUBON SOCIETY

It's health has, does, and will,
profoundly affect the human condition.

You have jump-started your self
on understanding not only marine
biology, evolution, and ecology, but
in fact all environmental science.

Your success is not due to luck,
and may it always accompany you!

Please send us the name
and address of the college of your
choice so that we may send them
a check for \$2500.

Sincerely

Rosa Durando
